Skagit Watershed Studies: An Estuary, a Tributary, and the Groundwater

Tuesday, December 9, 2025, 10:00 am - 12:30 pm

Please join us for this virtual event with three presentations focused on the Skagit watershed.

Washington State Representative Debra Lekanoff and Senator Keith Wagoner, former co-chairs of the Joint Legislative Task Force (Task Force) on Water Supply, are convening a presentation and discussion focused on three Skagit Basin water supply studies identified by the Task Force. Research teams will share their findings:

- ***Skagit River Basin Groundwater Study***
Study Lead: Chad Wiseman, Washington Fisheries Program Lead at HDR
- ***Hydrologic Study of the Skagit Estuary***
Study Lead: Correigh Greene, Skagit River System Cooperative and Northwest Fisheries Science Center, NOAA Fisheries (retired)
- ***Skagit River Tributary Instream Flow Habitat Assessment***
Study Lead: Thomas Gast, Principal Scientist at Thomas Gast & Associates Environmental Consultants

This research was facilitated by the State of Washington Water Research Center in conjunction with the Washington State Academy of Sciences. It was funded through a contract with the Washington State Department of Ecology.

The event is free but registration is required.
